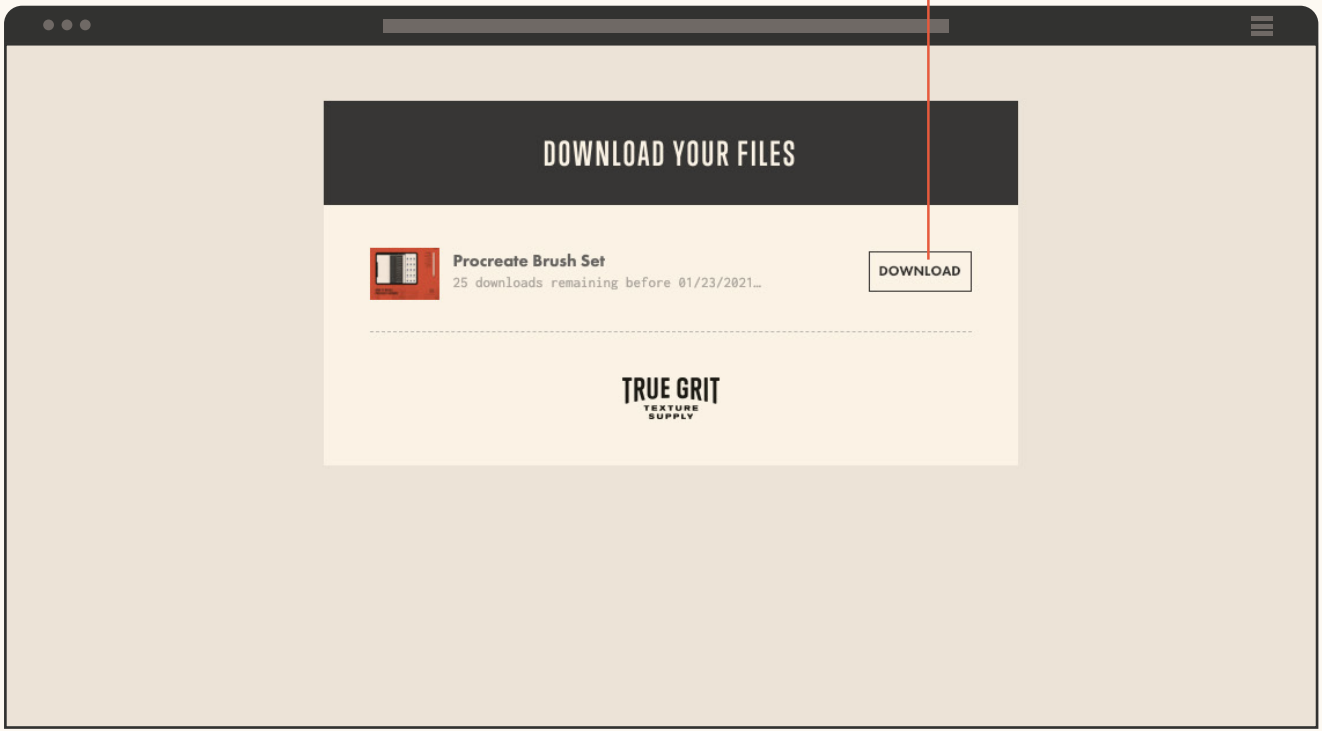
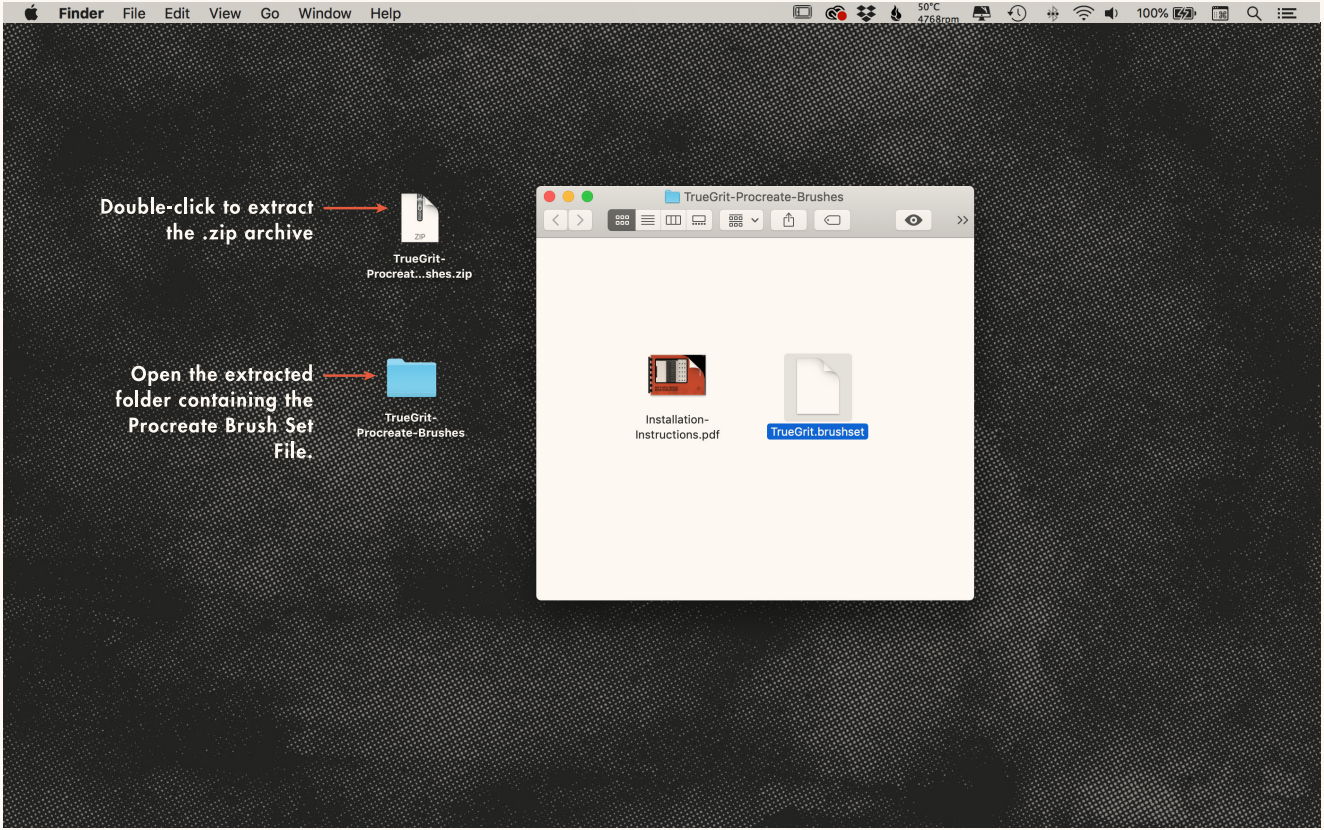
STEP 1

Download the .zip file to your desktop from the order download page.



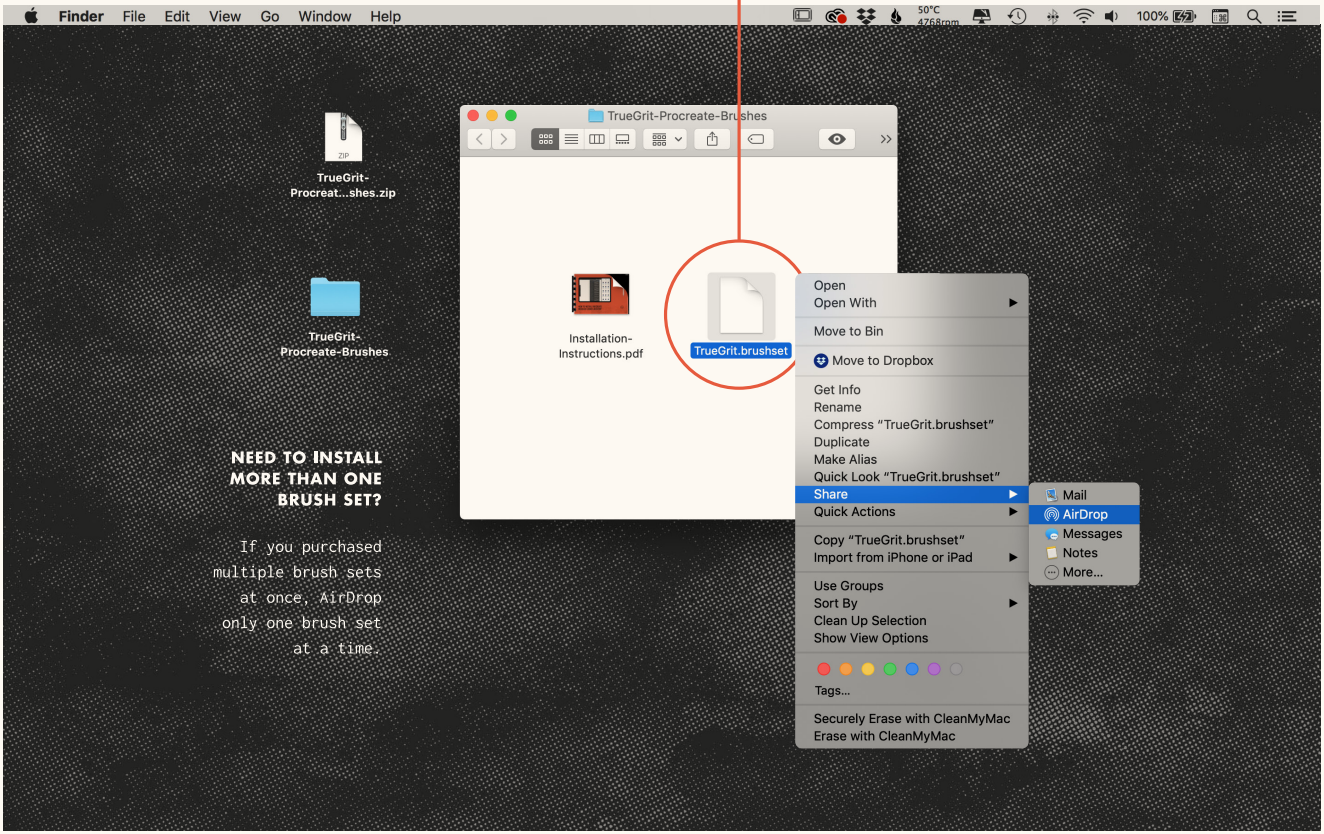
STEP ❷

Double-click to extract the .zip archive then open the extracted folder containing your brushset file.



STEP 3

Right-click the Procreate Brush Set file (file extension .brushset) and go to **Share > AirDrop**.

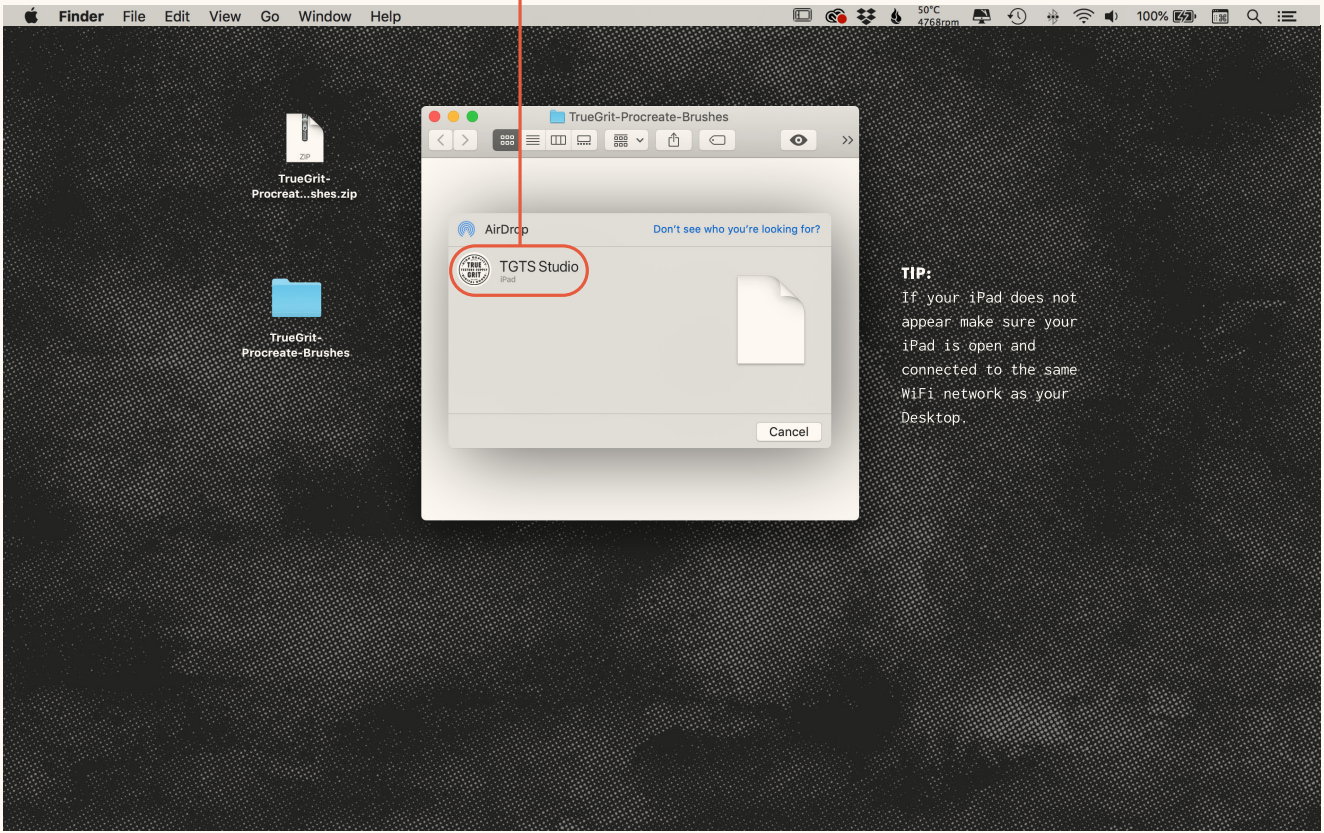


NEED TO INSTALL MORE THAN ONE BRUSH SET?

If you purchased multiple brush sets at once, AirDrop only one brush set at a time.

STEP 4

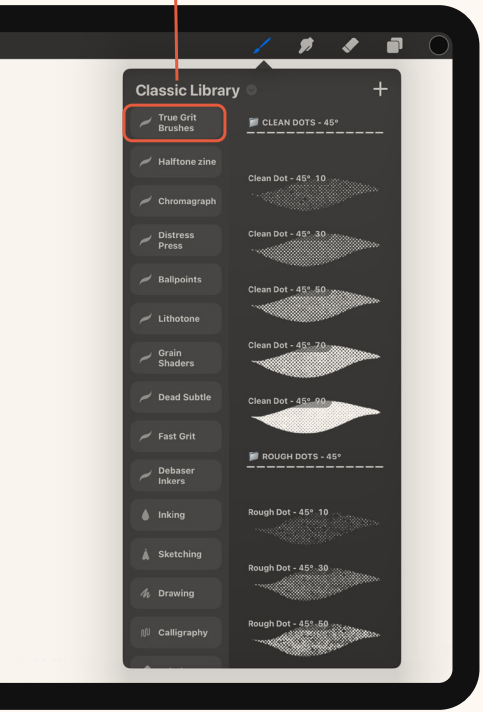
Choose your iPad as the AirDrop destination



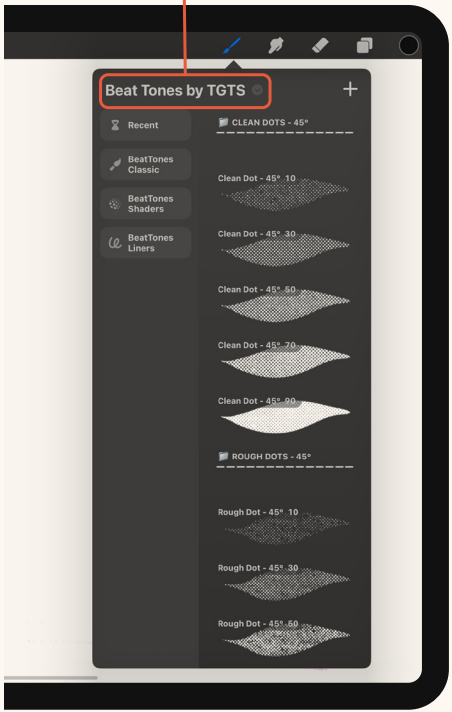
TIP:
If your iPad does not appear make sure your iPad is open and connected to the same WiFi network as your Desktop.

SUCCESS!

Fire up Procreate and you'll find your brushes ready and waiting in a new brush set at the top of the Classic Library.



If your pack contains multiple brush sets, they will load in a separate brush library.



NEED TO INSTALL MORE BRUSHES?

If you've purchased a Procreate Brush bundle or multiple brush sets at once, repeat steps 5-13 for each additional brush set purchased.
